SUPPLEMENT TO REPORT NO.

1. Location and layout of plant: see Annex.
2. The plant was designated Plant No 283 or No 381.
3. The old installation was being reconditioned and some new construction was under way.
4. About five hundred Soviets worked in one shift..
5. The manufacture had probably not started. According to Soviets, aircraft parts and engine parts were to be produced.

[REDACTED] Comment: 25X1A

a. This is the first information on the LENINGRAD Aircraft Parts Delivery Plant.

b. Aircraft Plant No 381 with three separate departments, whose exact locations were not known, existed in LENINGRAD at the beginning of World War II. The plant was transferred to NISHNI TAGIL in 1941 and was shutdown in 1943. The factory number was discarded in the war.

c. The old plant, probably only a small subsidiary plant, seems to have been reestablished after the war. According to an aerial photograph, the only workshop is 165 x 180 feet. The plant area has little possibilities of expansion.

1 Annex: Aircraft Parts Plant in LENINGRAD.
